

K-LOVE provides daily inspirational to me that I need in my daily life.

I believe many lives in the community would be adversely affected if K-LOVE were to be displaced by LPFM broadcasting of other programming. The local community relies on the K-LOVE "inspiration" on a daily basis.

I believe that the positive influence provided by K-LOVE through music and short message is a "must" for our today's community. It is therefore in the community's best interest to not do anything that would impact K-Love being "on-the-air"!!
